3895	Porpoise
3895	Seagull

NOTES:

Use this conversion chart to convert your needlework designs from DMC to Weeks Dye Works. These conversions will work well for samplers, folk art, primitive and whimsical designs. It may work less-well for photo-realistic designs, as most Weeks Dye Works flosses contain subtle to strong color changes within each skein.

Not every DMC color has a Weeks Dye Works equivalent in this conversion. The Weeks Dye Works colors listed are closest to the DMC numbers they are paired with.

Sometimes, a DMC color may have several Weeks Dye Works colors listed as substitutes. This has to do with the subtleties and plays of color within the hand-dyed flosses.

Not every Weeks Dye Works color is listed on this chart. Some colors in the Weeks line are made up of multiple different colors, making them unsuitable for a direct DMC to Weeks conversion.

Weeks Dye Works hand over-dyed flosses are produced in the USA. This complementary conversion is provided free-of-charge by Weeks Dye Works
